Lateisha is adamant about working in the spirit of excellence. Within the last seven years, Lateisha has developed her speaking and writing ability, both personally and professionally. One of her greatest engagements was addressing the World Council of Credit Unions conference, held in Nassau, Bahamas.

Additionally, she teaches on money management (budgeting, savings and debt, credit score and debt service ratio – its importance) and works with organizations to improve their processes – through strategic and succession planning. Also, one of her goals is to train students in primary, and secondary schools in the Bahamas, to begin money management at an early age.

She is an Author, Speaker and Consultant – Black Pearl Consulting Firm. Throughout her experiences, Lateisha dares to make life easier through innovation and strategic moves; as such, she wishes to impart her knowledge to others.
